Thank you so much. ADA Martin has been looking for it, but has yet to locate it.

Erin-

Since I didn't know if you found the copy of the discovery packet I previously faxed to ADA Laura Martin, I mailed a copy of it to you today. Also, on call would be fine for the trial on October 27th.

Erin-

Your office should already have a copy of my lab notes for this case as I faxed them to ADA Laura Martin on 5/27/11 for the scheduled motion to suppress on 6/20/11. If it is not in your case file, I can either re-fax them or send them through the mail to you (our office does not have a reliable scanner at this point). Also, I have attached a more current version of my CV to this email than the one that is in the original discovery packet. Please let me know if the discovery notes are still MIA and, if they are, which way you would prefer me to send them to you. Thanks.

-Sonja

Dear Sonja,

At your earliest convenience could you please email me the lab notes and analysis associated with the following lab numbers:

Could you please also include a copy of your CV?

The case has also been scheduled for trial on October 27 so I have attached a summons for your appearance. If you could be "on call" that would be great.

Thank you!

Erin
